### **CAREER PROFILE**

- ✓ Making decisions, implementing, and monitoring all technology investments of Hexagon Group, which consists of Automotive Design Engineering, Information Technologies, and Solid Waste companies.
- ✓ Taking responsibility as the highest-level executive against the Board of Directors of the Group's information technologies company.
- ✓ Managing budget, cash flow, strategy, personnel management, tax management, finance, and invoicing operations within the company.
- ✓ Coordinating between the relevant departments within the company and producing new projects accordingly.
- ✓ Managing the establishment of the ERP system for organizing Hexagon Group's internal policies and procedures, publishing correspondence on the portal, and keeping accounting records regularly.
- ✓ Obtaining and maintaining the company's ISO 9001 and ISO 27001 information security certificates in compliance with legal regulations.
- ✓ Managing the necessary infrastructure and reporting systems for processing and reporting all data produced in the company.
- ✓ Structuring IT human resources in line with the different visions of the Group companies.
- ✓ Determining the company's long-term information technology goals, developing strategies, and consolidating them with targets.
- ✓ Establishing and auditing the management system for analyzing the profitability and efficiency of the Group.
- ✓ Following developments in information technologies, proposing advanced technologies that will create a competitive advantage to the company's Board of Directors, and ensuring their adaptation.
- ✓ Informing all company employees about Industry 4.0 and artificial intelligence.
- ✓ Leading the modernization and optimization of the company's technology infrastructure to align with the digital vision.
- ✓ Creating information security policies and protecting system reliability both internally and externally, improving the reliability of the used systems, and establishing working conditions.
- ✓ Providing leadership training on sailboats.
- ✓ Providing professional consultancy to employees by completing professional coaching training.
